40 WHITE OAKS LN, MADISON, WI 53711

PUBLICATION FREQUENCY
4 issues/year
Journal Citation Indicator (JCI)

0.61

The Journal Citation Indicator (JCI) is the average Category Normalized Citation Impact (CNCI) of citable items published by a journal over a recent three year period. The average JCI in a category is 1. Journals with a JCI of 1.5 have 50% more citations than the average in that category. It may be used alongside other metrics to help you evaluate journals. Learn more

Total Citations

333

Export

The total number of times that a journal has been cited by all journals included in the database in the JCR year. JCR are compiled annually from the JCR years combined database, regardless of which JCR edition lists the source.
Rank by Journal Citation Indicator (JCI)

Journals within a category are sorted in descending order by Journal Citation Indicator (JCI) resulting in the Category list. For each journal, a separate rank is shown for each category in which the journal is listed in JCR. Data for the most recent year is presented in this list, with other years shown in reverse chronological order. Learn more
